| Foreword | xi |
|----------------|----|

SPECIMEN BANKING ACTIVITIES

| | |
|--|----|
| Current activities within the National Biomonitoring Specimen Bank | |
| S.A. Wise, B.J. Koster, J.K. Langland and R. Zeisler (Gaithersburg, MD) | 1 |
| Human organ specimen banking — 15 years of experience | |
| F.H. Kemper (Münster, Germany) | 13 |
| The Jülich Environmental Specimen Bank | |
| J.D. Schladot, M. Stoeppler and M.J. Schwuger (Jülich, Germany) | 27 |
| Coordination of environmental specimen banking in the Nordic countries, its mission and strategy | |
| B. Giege and T. Odsjö (Solna and Stockholm, Sweden) | 37 |
| Activities related to environmental specimen banking in Japan | |
| Y. Ambe (Tokyo, Japan) | 49 |
| The Danish Environmental Specimen Bank — status of establishment | |
| M.E. Poulsen and G. Pritzl (Roskilde, Denmark) | 61 |
| Biological specimen banking in Arctic research: an Alaska perspective | |
| P.R. Becker, B.J. Koster, S.A. Wise and R. Zeisler (Anchorage, AK; Gaithersburg, MD) | 69 |
| Development of the National Marine Mammal Tissue Bank | |
| T.I. Lillestolen, N. Foster and S.A. Wise (Silver Spring and Gaithersburg, MD) | 97 |

DEVELOPMENT OF NEW SPECIMEN BANK PROJECTS

| | |
|---|-----|
| Canadian Human Specimen Bank: an emerging Great Lakes health effects program | |
| K.S. Subramanian (Ottawa, Canada) | 109 |
| The Great Lakes Fisheries Specimen Bank | |
| W.H. Hyatt, M.J. Keir and D.M. Whittle (Burlington, Canada) | 123 |
| Implementation of specimen banking concepts in developing countries. First trial — Sri Lanka | |
| R. Jayasekera and M. Rossbach (Kelaniya, Sri Lanka; Jülich, Germany) | 139 |
| Biological environmental specimen banking in Slovakia | |
| T. Trnovec, L. Majláthová, L. Rosival and D. Rolný (Bratislava and Sklabinská, Slovak Republic) | 143 |
| The Swedish Environmental Specimen Bank with reference to the National Contaminant Monitoring Programme in Sweden | |
| T. Odsjö (Stockholm, Sweden) | 147 |

| | |
|--|-----|
| Biological specimen bank for smelter workers | |
| L. Gerhardsson, D. Brune, N.-G. Lundström, G. Nordberg and P.O. Wester (Umeå, Lund and Oslo, Sweden) | 157 |
| US-Canada Great Lakes Regional Specimen Bank Feasibility Study | |
| A. Kerry, C.J. Edmonds, L. Landon and T.L. Yonker (Mississauga, Canada; Lansing, MI) | 175 |
| A proposal for the establishment of the National Center for Phylogenetic Resource Conservation in the Venezuelan Republic | |
| M. Agudo and D. Rodriguez (Venezuela) | 193 |
| Development of requirements for environmental specimen banking in ecological monitoring (exemplified by the Chernobyl NPP accident area) | |
| V.A. Borzilov (Obninsk, Russian Federation) | 197 |

BIOLOGICAL INDICATORS FOR SPECIMEN BANKING AND MONITORING

| | |
|---|-----|
| The animal specimens of terrestrial and limnetic ecosystems in the environmental specimen banking programme of Germany | |
| R. Klein (Saarbrücken, Germany) | 203 |
| Plants and soils as specimen types from terrestrial ecosystems in the environmental specimen banking program of the Federal Republic of Germany | |
| G. Wagner (Saarbrücken, Germany) | 213 |
| Banking of environmental samples for short-term biochemical and chemical monitoring of organic contamination in coastal marine environments: the GICBEM experience (1986-1990) | |
| P. Garrigues, J.F. Narbonne, M. Lafaurie, D. Ribera, P. Lemaire, C. Raoux, X. Michel, J.P. Salaun, J.L. Monod, M. Romeo (Talence, Nice, Strasbourg and Marseille, France) | 225 |
| Investigation of roe deer — criteria for use as a bioindicator in specimen banking | |
| J. Holm (Braunschweig, Germany) | 237 |
| Feathers of the magpie (<i>Pica pica</i>) as a bioindicator material for heavy metal pollution assessment | |
| K. Dmowski and J. Golimowski (Warsaw, Poland) | 251 |
| Bird feathers as bioindicators in areas of the German Environmental Specimen Bank — bioaccumulation of mercury in food chains and exogenous deposition of atmospheric pollution with lead and cadmium | |
| E. Hahn, K. Hahn and M. Stoeppler (Jülich, Germany) | 259 |
| Utilization of vegetation sample bank as an indicator of environmental state in the areas of industrial pollution | |
| E.F. Kovnatsky and V.A. Surnin (Obninsk, Russian Federation) | 271 |
| Using a bank of predatory fish samples for bioindication of radioactive contamination of aquatic food chains in the area affected by the Chernobyl accident | |
| I.I. Kryshev, I.N. Ryabov and T.G. Sazykina (Obninsk, Russian Federation) | 279 |
| Phytoplankton specimen bank for assessing ecological state of NPP cooling ponds | |
| T.G. Sazykina (Obninsk, Russian Federation) | 287 |
| Monitoring heavy metals in the Gulf of Thailand using mussel watch approach | |
| P. Sukasem and M.S. Tabucanon (Bangkok, Thailand) | 297 |

DETERMINATION OF ORGANIC POLLUTANTS

| | |
|---|-----|
| The use of passive samplers for monitoring polycyclic aromatic hydrocarbons in ambient air | |
| J. Jacob, G. Grimmer and A. Hildebrandt (Grosshansdorf, Germany) .. | 307 |
| Determination of PCBs and chlorinated hydrocarbons in marine mammal tissues | |
| M.M. Schantz, B.J. Koster, S.A. Wise and P.R. Becker (Gaithersburg, MD; Anchorage, AK) | 323 |
| Contemporary and retrospective investigations of human milk in the trend studies of organochlorine contaminants in Sweden | |
| K. Norén (Stockholm, Sweden) | 347 |
| Ecological assessment of a region with PCB emissions using samples of soil, vegetation and breast milk: a case study | |
| T. Bobovnikova, A. Dibtseva, A. Mitroshkov and G. Pleskachevskaya (Obninsk and Serpukhov, Russian Federation) | 357 |

DETERMINATION OF INORGANIC CONSTITUENTS

| | |
|---|-----|
| Determination of inorganic constituents in marine mammal tissues | |
| R. Zeisler, R. Demiralp, B.J. Koster, P.R. Becker, M. Burow, P. Ostapczuk and S.A. Wise (Gaithersburg, MD; Anchorage, AK; Jülich, Germany) .. | 365 |
| Herring gull eggs as bioindicators for chlorinated hydrocarbons (contribution to the German Federal Environmental Specimen Bank) | |
| K. Oxynos, J. Schmitzer and A. Kettrup (Neuherberg, Germany) | 387 |
| Concentration of elements in human brain: glioblastoma multiforme | |
| E. Andrási, M. Suhajda, I. Sáray, L. Bezúr, L. Ernyei and A. Réffy (Budapest, Hungary) | 399 |
| Effective tools for the trace element characterization of tissues: neutron activation analysis and voltammetry | |
| R. Zeisler, P. Ostapczuk, S.F. Stone and M. Stoeppler (Gaithersburg, MD; Jülich, Germany) | 403 |
| Prompt and delayed NAA techniques for the characterization of specimen bank materials | |
| M. Rossbach, M. Stoeppler and A.R. Byrne (Jülich, Germany; Ljubljana, Slovenia) | 411 |
| Radiochemical neutron activation analysis of Fe, Co, Zn, Sb and Se in biomedical and environmental samples | |
| A.N. Garg, R.G. Weginwar and N.L. Chutke (Nagpur, India) | 421 |
| Levels of cesium-137 in seawater and fish from the Brazilian coast | |
| I.L.L. Cunha, C.S. Munita, R.P. Paiva and A. Teixeira (Sao Paulo, Brazil) | 431 |
| Reference materials and environmental specimen banking | |
| S.J. Reddy, M. Froning, C. Mohl and P. Ostapczuk (Tirupati, India; Jülich, Germany) | 437 |
| Two spruce shoot candidate reference materials from the German environmental specimen bank | |
| F. Backhaus, U. Bagschik, M. Burow, A.R. Byrne, M. Froning, C. Mohl, | |

| | |
|---|-----|
| P. Ostapczuk, M. Rossbach, J.D. Schladot, M. Stoeppler, E. Waidmann and R. Zeisler (Jülich, Germany; Ljubljana, Slovenia; Gaithersburg, MD) | 447 |
|---|-----|

FUTURE DEVELOPMENTS FOR SPECIMEN BANKING AND MONITORING

| | |
|---|-----|
| Stress proteins as biomarkers of contaminant exposure in archived environmental samples | |
| B.M. Sanders and L.S. Martin (Long Beach, CA) | 459 |
| Use of DNA probes and plasmid capture in a search for new interesting environmental genes | |
| L. Diels, D. Springael, N. van der Lelie, E. Top and M. Mergeay (Mol and Ghent, Belgium) | 471 |
| Surfactants and complexing agents: new tasks for specimen banking? | |
| G. Kloster, E. Klumpp and M.J. Schwuger (Jülich, Germany) | 479 |
| Analytical and biological data of banked samples — a requirement to interpret accumulation and leaching of pollutants in biological specimens | |
| G. Stöcker (Bad Lauchstädt, Germany) | 491 |
| Environmental specimen banking and poisons control — a new challenge | |
| F.W. Jekat, R. Eckard and F.H. Kemper (Münster, Germany) | 507 |
| Photon transmission tomography techniques for screening organs in biological specimen banking | |
| A.C. Beach and N.M. Spyrou (Guildford, UK) | 515 |
| The JANUS serum bank | |
| E. Jellum, A. Andersen, P. Lund-Larsen, L. Theodorsen and H. Orjasaeter (Oslo, Norway) | 527 |
| Environmental specimen banking (ESB): an essential part of integrated ecological monitoring on a global scale | |
| H. Keune (Neuherberg, Germany) | 537 |
| <i>Author Index</i> | 545 |
| <i>Subject Index</i> | 547 |
